

Company profile

FDC CONFIDENTIAL - SYNTHETIC DEMO DATA

Fake Demo Company, Inc. (FDC) is a Denver-based B2B software company founded in 2018. FDC helps multi-location retail and field-service businesses connect inventory, dispatch, purchasing, and finance operations. The company has 286 employees and 428 active customers as of March 31, 2026. FDC is a Series C company. The fiscal year ends on December 31.

PRODUCTS

RelayOS: workflow and inventory orchestration for distributed operations.
LedgerLens: purchasing, spend controls, and financial variance analytics.
FieldSync: technician dispatch, mobile work orders, and route coordination.

CUSTOMER PROFILE

Core customers operate 25 to 1,500 locations and have complex frontline workflows. Revenue mix is 75% North America, 18% EMEA, and 7% APAC. No single customer represents more than 4.2% of ARR. The top ten represent 24%.

2026 strategy and board targets

FDC CONFIDENTIAL - SYNTHETIC DEMO DATA

FDC's 2026 strategy is to become the operating system for distributed service businesses.

BOARD TARGETS

1. Reach \$100 million in ARR by the end of Q4 2026.
2. Keep gross margin at or above 75% while scaling AI-assisted workflows.
3. Grow EMEA from 18% to 23% of revenue without lowering company-wide NRR below 120%.
4. Deliver positive operating cash flow for the full fiscal year.

TOP COMPANY PRIORITIES

Improve enterprise implementation time from 74 days to below 55 days.

Launch EU data residency by September 2026.

Increase FieldSync weekly active usage from 62% to 72%.

Reduce preventable SEV-2 incidents to fewer than one per quarter.

PRIMARY RISKS

Enterprise implementation capacity, EMEA hiring speed, and cloud inference cost.
